# NAVY YARD MACHINISTS **ACT AGAINST WAGE CUT**

**Confident Their Committee Will** Persuade Naval Board to Reconsider Action.

Coppersmiths Also Have Entered Protest Against Decrease in Pay Recommended for Them.

Machinists at the Washington navy yard, all classes of whom were recommended for a reduction in wages by the naval wage board, are confident that the committee representing them will be able to get the wage board of naval officers to reconsider its action and recommend that the machinists' wages remain the same as during the past year. As soon board had recommended a decrease for the machinists a committee to represent the men was appointed to make a vigorous protest against the board's action. Conferences between the members of the board and representatives of the men, it is declared, are being held almost daily. The coppersmiths, for whom a decrease also was recommended, have entered a protest, but it could not be learned whether any of the other classes of employes at the yard who had been recommended for decreases had filed protests. Only in a few instances did the board recommend increases, and most of these were on the minimum wage. In its work of fixing the pay for the Washington yard employes the members of the board obtained information on the wages paid by private firms as far away as Philadelphia and Bethlehem, Pa.

Living Question Disregarded. The increase given the employes of the local navy yard about a year ago was based upon the finding that the cost of living was higher in Washington than in any other city where a navy yard was located, and for this reason the employes of the Washington yard wire recommended for a higher wage scale. B t, it is stated, the present board of naval officers which had the matter under consideration has rotally disteranded cost-of-living question and reached its conclusions from figures on the salaries paid employes of private establishments in cities hear Washington. Forty-six firms in Washington supplied the board with information, seven firms in Alexandria. ## HOW TO TAKE GOOD CARE OF YOUR HAIR

Nothing spoils your good looks so much as homely hair-stringy, dullcolored, harsh. Nothing adds to good looks so much as beautiful hair-soft, silky, wavy and glossy. No matter how beautiful your hair is now, you can improve its good looks by using Harmony Hair Beautifler. If your hair is homely and ugly now, Harmony Hair Beautifier will make it softer, silkier, glossler, more beautiful in every way. It also makes it easier to put up and helps it to "stay put." Its rich rose odor hides the unpleasant, oily smell of the hair. Harmony Hair Beautifier is rightly named; it

beautifies the hair. Very easy to apply-simply sprinkle a little on your hair each time before brushing it. It contains no off, and ( will not change the color of the hair, nor darken gray hair.
